FALL
1911

This Book Our Only Salesman

Buy Direct from the Nursery and Save Money

FALL
1911

The advantage in buying from us is that you save the Middleman's Profit, Agents' Commissions, Freight Charges, etc.

We have been in the business for many years, but have heretofore sold our goods mostly to jobbers. Now, we can save you the middleman's profit and sell at low prices because we are growers, handling large quantities, and are satisfied with a moderate profit.

Our aim will be to supply good, live nursery stock at reasonable prices. We shall not attempt to give extravagant descriptions tending to mislead, but will endeavor to make them clear and concise. We believe that our patrons will appreciate this. We invite your attention to some of the advantages to be obtained by purchasing of us.

Our Guarantee Protects You

We guarantee that our stock is true to name under the following conditions:

In growing and furnishing all nursery stock we use the greatest care to have it true to name, and will replace any that may prove untrue. But no sale by us carries a warranty of quality, express or implied, and for any error we shall not be liable for more than the purchase price. Every purchase from us is made on these terms.

Rochester Grown Trees—Rochester has long been recognized as the "Tree Center of the World." Persons buying from us can rely on getting the *very best that can be grown*.

Certificate of Inspection—Our nurseries have been inspected by the New York State authorities and a certificate given, copy of which will be attached to each shipment, see form on opposite page.

Responsibility—As to our responsibility we refer by permission to the Lincoln National Bank and the Rochester Trust and Safe Deposit Company of this city, also to the mercantile agencies of R. G. Dun & Company and the Bradstreet Company.

True Trees Bear True Fruit—Rich Land Stock is True

RICH LAND NURSERIES

How to Send Orders

In back of this catalog is a blank order sheet to be used for making out orders. Follow instructions at top of order sheet and fill out, writing as plainly as possible the quality, name, number and catalog price; giving Postoffice, whether Rural Free Delivery, and nearest railroad station.

We Prepay Freight

We prepay the freight to all points east of the Mississippi River on all orders which amount to \$5.00 or over at the prices in this catalog. (Smaller packages can be sent by express or mail. Packages weighing up to four pounds can be sent by mail at one cent for two ounces. Stamps or currency must accompany all orders that are to be sent by mail).

On all Canadian Shipments the prices quoted are for stock delivered on board cars at railroad station at Rochester, N. Y.

Terms of Payment

All orders must be accompanied with a bank draft, Postoffice money order, express money order, or currency in a registered letter for the **full amount of the order**.

Early Orders Advised—Orders should be sent in early. It is our rule to execute them in the order received. It is advisable to forward goods early. If the ground is not in condition to plant, they can be left in boxes, or taken out and the roots covered with earth.

RICH LAND NURSERIES, Rochester, N. Y.

No. 1410

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE

CERTIFICATE OF INSPECTION OF

NURSERY STOCK

This is to Certify that the stock in the nursery of Rich Land Nurseries of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Section 305 of the Agricultural Law, and was found to be apparently free from any contagious or infectious disease or diseases or the San Jose scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1912.

Dated Albany, N. Y., September 1, 1911.

R. A. PEARSON,

Commissioner of Agriculture.

Rich Land Nurseries

Planting Directions

SOIL.—For fruit trees the soil should be dry, either natural or made so by thorough drainage. It should also be well prepared by twice plowing, at least, beforehand. On new, fresh lands manuring will be unnecessary, but on lands exhausted by cropping, fertilizers must be applied, either by turning in heavy crops of clover or well decomposed manure or compost. To insure a good growth of fruit trees land should be in as good condition as for a crop of wheat, corn, or potatoes.

PREPARATION OF THE TREES.—As a general thing, trees are planted in the ground precisely as they are sent from the nursery. In removing a tree, no matter how carefully it may be done, a portion of the roots are broken and destroyed, and consequently the balance that existed in the structure of the tree is deranged. This must be restored by a proper pruning, adapted to the size, form, and condition of the tree, as follows:

Standard Orchard Trees.—These, as sent from the nursery, vary from five to seven feet in height, with naked stems or trunks, and a number of branches at the top forming a head. These branches should all be cut back to within three or four buds of their base. This lessens the demand upon the roots, and enables the remaining buds to push with vigor. Cut off smoothly all bruised or broken roots up to the sound wood. As a general thing it will be safe to shorten all the previous year's shoots to three or four buds at their base, and where the branches are very numerous some may be cut out entirely.

Dwarf Trees.—If of two or three years' growth, with a number of side branches, will require to be pruned with a two-fold object in view, viz., the growth of the tree and the desired form. The branches must be cut into the form of a pyramid by shortening the lower ones, say one-half, those above them shorter, and the upper ones around the leading shoots to within two or three buds of their base. The leader itself must be shortened back one-half or more. When trees have been dried or injured much by exposure, the pruning must be closer than if in good order.

PLANTING.—Dig holes in the first place large enough to admit the roots of the tree to spread out in their natural position; then, having the tree pruned as before directed, let one person hold it in an upright position, and the other shovel in the earth, carefully putting the finest and the best from the surface in among the roots, filling every interstice, and bringing every root in contact with the soil. When the earth is nearly filled in, a pail of water may be thrown on to settle and wash in the earth around the roots; then fill in the remainder and tread gently with the foot. The use of water is seldom necessary, except in dry weather early in fall or late in spring. Guard against planting too deep; the trees, after the ground settles, should stand in this respect as they did in the nursery. Trees on dwarf stock should stand so that all the stock be under the ground, and no more. In very dry, gravelly ground, the holes should be dug twice the usual size and depth, and filled in with good loamy soil.

STAKING.—If trees are tall and much exposed to winds, a stake should be planted with the tree, to which it should be tied in such a manner as to avoid chafing. A piece of matting or cloth may be put between the tree and the stake.

MULCHING.—When the tree is planted throw around it as far as the roots extend, and a foot beyond, five or six inches deep of rough manure or litter. This is particularly necessary in dry ground, and is highly advantageous everywhere both in spring and fall planting. It prevents the ground from baking or cracking, and maintains an equal temperature about the roots.

AFTER-CULTURE.—The grass should not be allowed to grow around young trees after being planted, as it stunts their growth. The ground should be kept clean and loose around them until, at least, they are of bearing size.

Treatment of Trees that have been Frozen in the Packages or Received during Frosty Weather.—Place the packages, unopened, in a cellar or some such place, cool, but free from frost, until perfectly thawed, when they can be unpacked, and either planted or placed in a trench until convenient to plant. Treated thus, they will not be injured by the freezing. Trees procured in the fall for spring planting, should be laid in trenches in a slanting position to avoid the winds; the situation should always be sheltered and the soil dry. A mulching on the roots and a few evergreen boughs over the tops will afford good protection.

DISTANCE BETWEEN TREES OR PLANTS IN PLANTATIONS

Standard Apples, 30 to 40 feet apart each way. In poor soil, 25 feet may be enough.

Standard Pears and Cherries, 20 feet apart each way.

Standard Plums, Peaches, Apricots, 16 to 18 feet apart each way.

Quinces, 10 to 12 feet apart each way.

Dwarf Pears, 10 to 12 feet apart each way. The greater distance is better where land is not scarce.

Currants, Gooseberries and Raspberries, 3 to 4 feet apart.

Blackberries, 6 to 7 feet apart.

Grapes, 8 to 10 feet apart.

Strawberries, 1 foot apart in the row; rows 3 feet apart.

NUMBER OF TREES OR PLANTS ON AN ACRE AT VARIOUS DISTANCES

At 4 feet apart each way	2729
" 5 "	1742
" 6 "	1200
" 8 "	680
" 10 "	430
" 12 "	325
" 15 "	200
" 18 "	135
" 20 "	110
" 25 "	70
" 30 "	50

The number of plants required for an acre, at any given distance apart, may be ascertained by dividing the number of square feet in an acre (43,560) by the number of square feet given to each plant, which is obtained by multiplying the distance between rows by the distance between the plants. Thus, strawberries planted three feet by one foot gives each plant three square feet or 14,520 plants to the acre.

PRICES FOR FALL, 1911

The prices in this catalog are strictly net and shipments are made promptly and our judgment used as to "How to Ship."

SUCH LOW PRICES ON FRESH NURSERY STOCK, all hardy, have never been offered before. You will save money if you order from us. Please note on different pages several special offers at ROCK BOTTOM PRICES.

Remarkably Low Prices on TULIPS, HYACINTHS, CROCUS and other Flowering Bulbs.

Rich Land Nurseries

APPLES

No ordinary farm crop will produce one fourth as much income per acre as a good apple orchard. Today an apple tree can be made to bear in six or seven years. During that time other crops may be harvested. The more the ground is tilled the quicker the trees will bear.

BISMARCK

Summer Varieties

Early Harvest—Medium size, pale yellow, fine flavor. August.

Red Astrachan—Large, crimson, good; very hardy. August.

Sweet Bough—Large, pale yellow, sweet. August.

Tetofsky—Medium size, yellow striped with red. Very hardy. August.

Yellow Transparent—Medium size, pale yellow; good. August.

Autumn Varieties

Alexander—Very large, red. Very hardy. September and October.

Bismarck—Very large, remarkably handsome and showy; color red on yellow ground; flesh yellow; quality good; extremely hardy and prolific and bears very early. November.

Fameuse (Snow Apple)—Medium size; crimson; flesh snowy white, delicious. Succeeds in the North. November to January.

Gravenstein—Very large, striped; of the first quality. September to October.

Maiden's Blush—Large, pale yellow with a red cheek. September and October.

PRICES

Standard Apples and Crabs Each	10	100

Autumn Varieties

(Continued)

Oldenburg or Duchess of Oldenburg—Large, streaked with red and yellow; juicy and pleasant. A young and abundant bearer. Succeeds well in the Northwest where most varieties fail. August and September.

Wealthy—Medium size, dark red; very good, very hardy. October.

Winter Varieties

Baldwin—Large, bright red. One of the most popular sorts. December to March.

Ben Davis—Large, striped, very hardy. A late keeper. Esteemed in the West and Southwest.

Golden Russet—Medium size, dull russet; hardy. November to April.

Grimes' Golden—Medium size, golden yellow. January to April.

Hubbardston or Hubbardston Nonsuch—Large, striped yellow and red; fine. Great bearer. November to January.

Lyman's Pumpkin Sweet (Pound Sweet)—Very large, greenish. October to December.

Mann—Medium size, deep yellow; hardy; an early bearer. January to April.

McIntosh Red—Large, bright red; very good; hardy. November to February.

Northern Spy—Large, striped. One of the finest late keeping apples.

Pewaukee—Medium size, striped. Esteemed especially for cold climates. January to May.

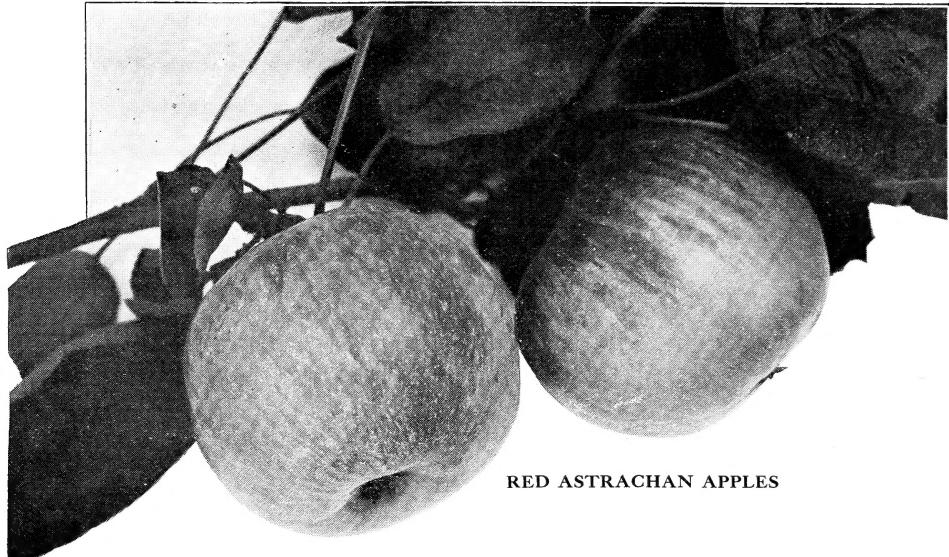

Rambo—Medium size, yellow and red. An esteemed old variety. October to January.

Rhode Island Greening—Everywhere well known and popular. Keeps until March or April.

Roxbury Russet—Medium to large, greenish russet. Keeps till June.

Sutton Beauty—Medium size, yellow striped with crimson. Very good. January and February.

Rich Land Nurseries

RED ASTRACHAN APPLES

APPLES—Continued

Tolman's Sweet—Medium size, pale yellow. November to April.

Tompkins King (King of Tompkins County)—A red apple of the largest size and finest quality. Hardy. November to January.

Twenty Ounce—Very large, striped; very popular. October to January.

Wagener—Medium size, deep red, excellent. December to May.

Winter Banana—Large, clear pale yellow. Bears young.

York Imperial—Medium size, shaded with crimson. Popular in Pennsylvania. November to February.

Crab Apples For Preserving

All the Crabs are Very Hardy.

Hyslop's—Large, deep crimson. October.

Transcendent—Red and yellow. A popular variety. September.

Whitney—Large, splashed with carmine. August.

Apple trees continue to be scarce and in view of this fact we advise everyone who contemplates planting to place orders early. It will be to your advantage to do so.

Baby Rambler Roses

Just the thing for beds and borders and for edging walks. They are bound to take the place of geraniums and other plants which have to be removed each year. You can have them in Crimson, White and Pink. Price, 25c. each.

Tulips

Beautiful early spring flower.

We can offer this season, choice Bulbs in mixed colors at the following remarkably low prices :

Single flowered - - - 75c per 100
Double " " " 90c " "

We can furnish Single Tulips, colors separate in Red, Yellow and White, at \$1.10 per 100.

If desired by mail, add 25c per 100 to cover postage.

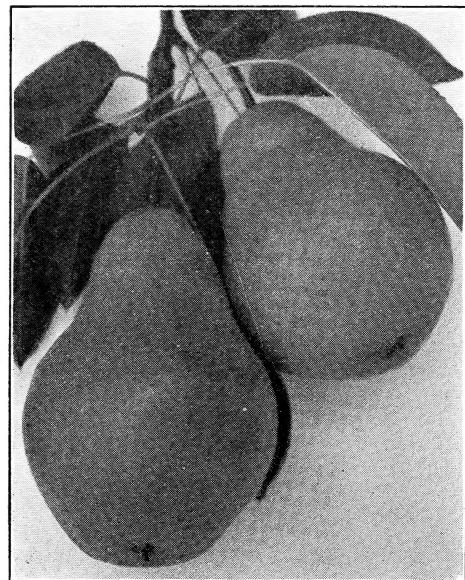

Rich Land Nurseries

PEARS

The Trees furnished are STANDARDS. We also grow all the varieties as DWARFS, which are desirable for gardens or grounds of small extent.

GATHERING PEARS—Summer Pears should be gathered at least ten days before they are ripe and Autumn Pears at least a fortnight. Winter varieties may be left until the leaves fall.

THIN THE FRUIT—When pear trees are heavily laden, the fruit should be thinned when about one-third grown, else the fruit will be poor and the trees injured.

BARTLETT PEAR

Summer Varieties

Bartlett—One of the most popular pears.

Clapp's Favorite—Resembles the Bartlett; ripens a few days earlier. Hardy.

Wilder Early—Medium size, greenish yellow, sweet. First of August.

Autumn Varieties

Angouleme or Duchesse d'Angouleme, also called Duchesse—One of the largest of all good pears. It attains its highest perfection as a dwarf. October and November.

Anjou (Beurre d'Anjou)—Large, handsome. One of the most valuable pears in cultivation. Keeps until the winter holidays.

Clairgeau (Beurre Clairgeau)—Very large, yellow and red, handsome. October and November.

Flemish Beauty—Large, sweet. Very hardy. September and October.

Send money order today or \$1.00 bill enclosed in a well sealed envelope and we will send promptly.

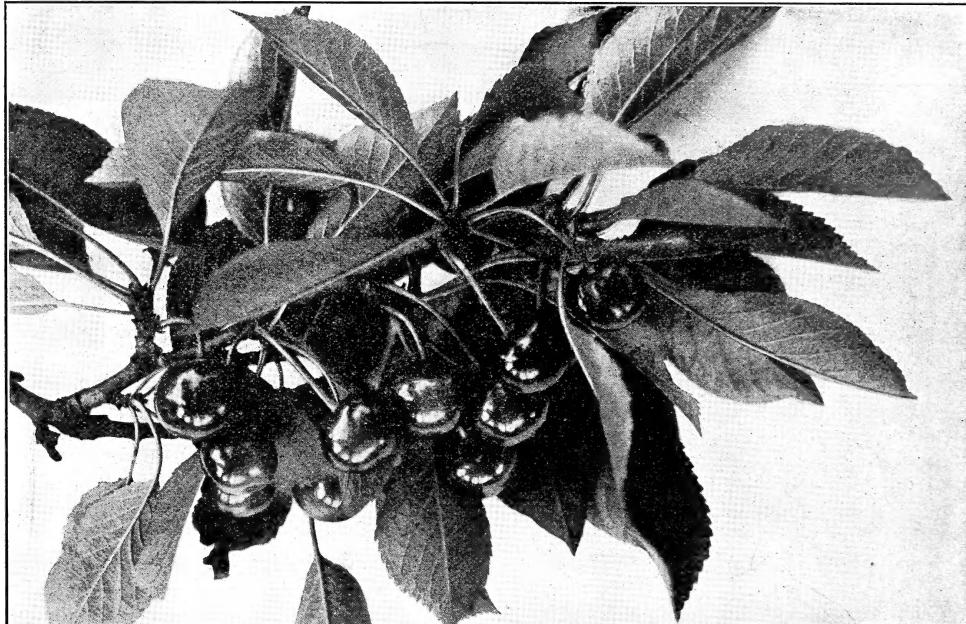

A Basket of Anjou Pears grown on Dwarf Trees

Rich Land Nurseries

CHERRIES

The cherry is one of the most popular fruits. Ordinary well grown trees produce from three bushels and upwards, and are a good paying crop. Cherry trees thrive well on dry sandy or gravel soil, but not on low damp land.

MONTMORENCY

PRICES

The Black and White Cherries all produce sweet fruit.

	Each	10	100
Largest size XXX	\$0.30	\$2.50	\$20.00
XX	.25	2.00	15.00

Black Cherries

Black Tartarian—Well known and popular.

Windsor—Ripens later than the above.
Valuable.

White Cherries

Governor Wood—Tender and delicious.

Napoleon—Very large, juicy and sweet.
None better.

Yellow Spanish—Very large. One of the
very best.

Sour Cherries

Early Richmond—An old variety, but still very popular.

May Duke—An excellent variety.

Montmorency—The finest sour cherry in existence.

HYACINTHS

Beautiful for Beds or Borders.
Can be furnished in Red, Pink,
White and Blue.

Single flowered, colors separate,
10 for 30c, 100 for \$2.85

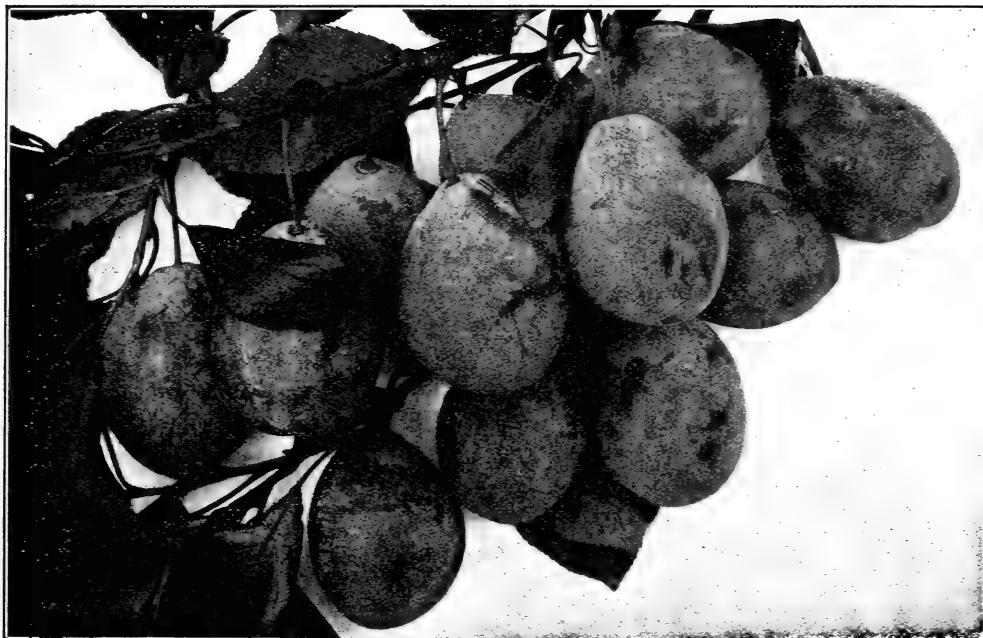

Double flowered, colors separate
10 for 35c, 100 for \$3.00

If by mail, add 35c per 100 for postage

Rich Land Nurseries

PLUMS

The finer kinds of plums are rich and luscious. For cooking and canning they are unsurpassed. Plums should be pruned to prevent a straggling growth. Plum trees grow best in heavy loam. Need cultivation.

GRAND DUKE

Bavay's Green Gage (Reine Claude de Bavay)—Large, fine flavor, greenish. Middle of September.

Bradshaw—Very large, early, dark violet red; good. Very productive.

Coe's Golden Drop—Large, light yellow. Last of September.

Fellemburg (French or Italian Prune)—Late, purple, delicious. September.

German Prune—Medium size, purple or blue, fine. Very productive. September.

Grand Duke—A valuable late plum, very large, purple; ripening latter part of September. One of the best late plums.

Imperial Gage—Large, greenish, juicy, rich and delicious. Middle of August.

Lombard—Medium size, violet red. A great bearer. Very hardy.

Shropshire Damson—Small size, dark purple; esteemed for preserving. Very productive. October.

Japanese Plums

Abundance—Large, rich bright cherry red; exceedingly productive. Very early.

Burbank—Large, clear cherry red; an abundant bearer; valuable market variety. Early in September.

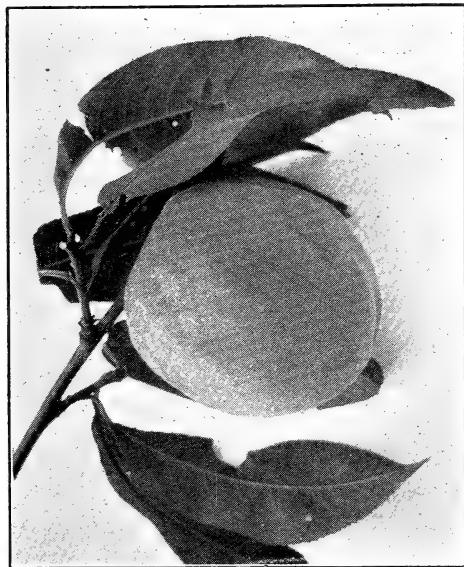

Red June—Medium size, purplish red, handsome. The earliest.

Wickson—Very large, glowing carmine.

Rich Land Nurseries

PEACHES

The peach tree requires a well drained, moderately rich soil. The branches and shoots need cutting back about one half of the season's growth. Valuable orchards are grown in three or four years. Require cultivation.

Elberta Peach

Alexander—Medium size, greenish white. Extra early. Beginning of August.

Champion—Early, large, creamy white, sweet, rich, freestone. August.

Crawford's Early—Large, yellow, good. One of the most popular varieties. Beginning of September.

Crawford's Late—Large, yellow, good. Last of September.

Elberta—One of the most valuable varieties; golden yellow, good. Valuable for market. September.

Fitzgerald—Similar to Crawford's Early.

Foster—Large, yellow, resembling Crawford's Early.

Mountain Rose—Large, dark red, good, freestone. Early.

Oldmixon Free—Large, greenish white and red. Succeeds Crawford's Early.

Rivers—Large, creamy white. Early.

Stump the World—Red and white. End of September.

Wheatland—Large, golden yellow, fine. Ripens between Early and Late Crawford.

Pointers for Planting

Keep the ground clean and mellow around the trees and give it an occasional dressing of wood ashes. Keep the heads low—the trunks ought not to exceed three feet in height. Attend regularly every spring to pruning and shortening the shoots of the previous year's growth. This keeps the head round, full and well furnished with bearing wood. Cut weak shoots back about one-half, and strong ones one-third; but see that you have a sufficient supply of fruit buds. Sickly and superfluous shoots should be cut clean out.

It should always be borne in mind that the fruit is produced on wood of the last season's growth, and hence the necessity of keeping up a good supply of vigorous annual shoots all over the tree.

In planting peaches it is of the highest importance to cut back the trees severely. The stem should be reduced about one-third and the side branches cut back to one bud. This lessens the demand upon the roots and enables the remaining buds to push more vigorously.

Crawford's Early Peach

Rich Land Nurseries

GRAPES

CONCORD

Black Grapes

Two Year Plants

Campbell's Early—Large and handsome, sweet. Very early. Each 25c; 10 for \$2.00; 100 for \$15.00.

Champion—A valuable sort to plant where the seasons are short. Each 10c; 10 for 80c; 100 for \$3.50.

Concord—The most popular market grape. Each 10c; 10 for 50c; 100 for \$3.00.

Eaton—A large showy grape. Each 15c; 10 for \$1.00.

Hartford—Very early and reliable. Each 15c; 10 for 80c; 100 for \$4.00.

Moore's Early—Desirable for an early crop. Each 10c; 10 for 80c; 100 for \$5.00.

Wilder (Rogers' No. 4)—One of the best varieties. Each 10c; 10 for 80c.

Worden—Larger than Concord. Ripens a few days earlier and is superior to it in flavor. Very popular. Each 10c; 10 for 80c; 100 for \$4.50.

Red Grapes

Agawam (Rogers' No. 15)—One of the best of the red varieties. Each 10c; 10 for 80c; 100 for \$4.00.

Brighton—Equal if not superior to Delaware; ripens early. Each 10c; 10 for 80; 100 for \$5.00.

Catawba—Large coppery red. Each 10c; 10 for 80c; 100 for \$4.00.

Delaware—Small, light red. It justly claims a place in every garden. Each 10c; 10 for 80c; 100 for \$5.00.

Gaertner (Rogers' No. 14)—Beautiful light red. The most showy grape in our collection. Each 15c; 10 for \$1.00; 100 for \$8.00.

Iona—Keeps till mid-winter with its freshness unimpaired. Each 10c; 10 for 80c.

Lindley (Rogers' No. 9)—Another fine red grape. Each 10c; 10 for 80c.

Salem (Rogers' No. 53)—One of the most popular of the Rogers. Each 10c; 10 for 80c; 100 for \$5.00.

White Grapes

Green Mountain—The earliest white grape; delicious. Each 20c; 10 for \$1.50.

Moore's Diamond—Juicy and almost without pulp. Each 10c; 10 for 80c; 100 for \$5.00.

Niagara—All things considered, probably the most valuable white grape in cultivation. Each 10c; 10 for 80c; 100 for \$4.00.

QUINCES

	Each	10	100
Largest size XXX	4-5 ft.	\$0.30	\$2.80
XX	3-4 ft.	.25	2.30
X	2-3 ft.	.20	1.80
			12.00

Orange—Large, golden yellow. October.

Rea (Rea's Mammoth)—Very large and fine.

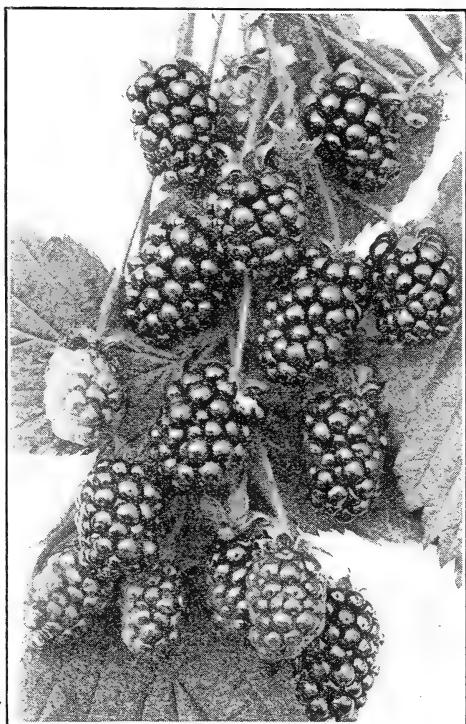

APRICOTS

The apricot is one of the most beautiful and delicious fruits, and its value is greatly enhanced by the season of its ripening—between cherries and peaches.

Price 25 cents each.

Rich Land Nurseries

BLACKBERRIES

Ancient Briton

ALL STRONG PLANTS

Agawam—Medium size, jet black, sweet. Hardy and very prolific. Early. 10 for 35c; 100 for \$2.00.

Ancient Briton—Medium size, melting, without core. Hardy and one of the best. 10 for 35c; 100 for \$2.00; 1000 for \$15.00.

Early King—Medium size, good, hardy and productive. Very early. 10 for 35c; 100 for \$2.00.

Eldorado—Medium size, jet black, melting, sweet and rich; hardy and productive. 10 for 35c; 100 for \$2.00.

Kittatinny—Large, glossy black; juicy, sweet. 10 for 35c; 100 for \$2.00.

Rathbun—Berries extra large, jet black, good. 10 for 35c; 100 for \$2.00; 1000 for \$15.00.

Snyder—Medium size, sweet and melting to the core. Very hardy and wonderfully productive. 10 for 35c; 100 for \$2.00; 1000 for \$15.00.

BLACK RASPBERRIES

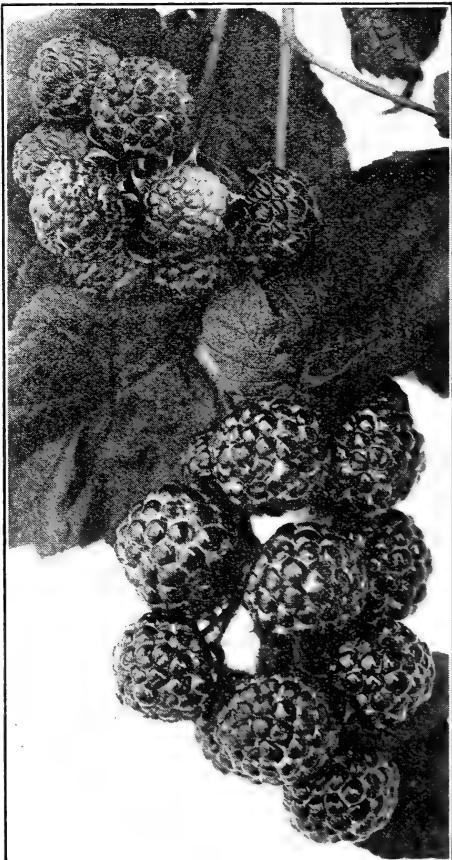

A very popular berry and a great seller
A sure and prolific yielder
All hardy plants

Black Diamond—Valuable market sort. 10 for 35c; 100 for \$1.40; 1000 for \$12.00.

Gregg—Fruit large, good quality, season medium; hardy, a great yielder. 10 for 35c; 100 for \$1.40; 1000 for \$12.00.

Kansas—Very large, handsome, firm and of excellent quality, very hardy and productive. 10 for 35c; 100 for \$1.40; 1000 for \$12.00.

Golden Queen—Large, amber color; firm and of fine quality. Hardy. 10 for 40c; 100 for \$3.00.

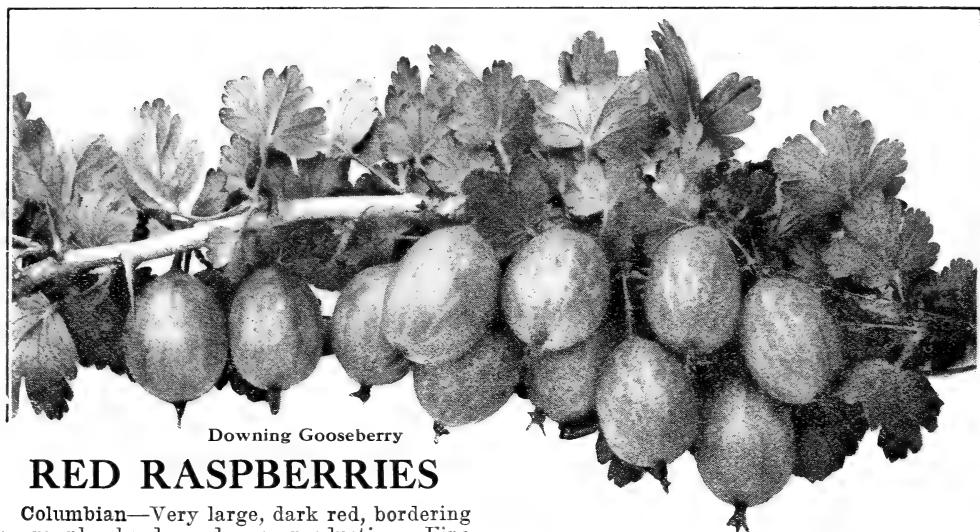

Kansas

Blackberries by Mail—Add 5c per plant for Postage

Rich Land Nurseries

GOOSEBERRIES

Downing Gooseberry

RED RASPBERRIES

Columbian—Very large, dark red, bordering on purple; hardy and very productive. Fine for canning. 10 for 35c; 100 for \$1.40; 1000 for \$12.00.

Cuthbert—Large, deep rich crimson. Very hardy. One of the best varieties for market. 10 for 35c; 100 for \$1.40; 1000 for \$12.00.

Marlboro—The best early red raspberry. Hardy and productive. 10 for 35c; 100 for \$1.40; 1000 for \$12.00.

GOOSEBERRIES

Two Year Plants.

Columbus—Of the largest size, greenish yellow, excellent. Each 12c; 10 for 90c; 100 for \$8.00.

Downing—Medium size, whitish green. Very profitable for market. Each 10c; 10 for 80c; 100 for \$7.00.

Industry—Large, oval, dark red, hairy. Rich. Each 18c; 10 for \$1.50; 100 for \$12.00.

Josselyn (Red Jacket)—Large, red. Good. Each 12c; 10 for 90c; 100 for \$8.00.

CURRANTS

Black—Esteemed by many. Each 8c; 10 for 60c; 100 for \$5.00.

Cherry—Large, red; bunches short; plant vigorous and productive. Each 8c; 10 for 60c; 100 for \$5.00.

Fay's Prolific—The most popular red currant; fruit very large and handsome. Each 8c; 10 for 60c; 100 for \$5.00; 1000 for \$40.00.

Currants by Mail—Add 5c per plant for Postage

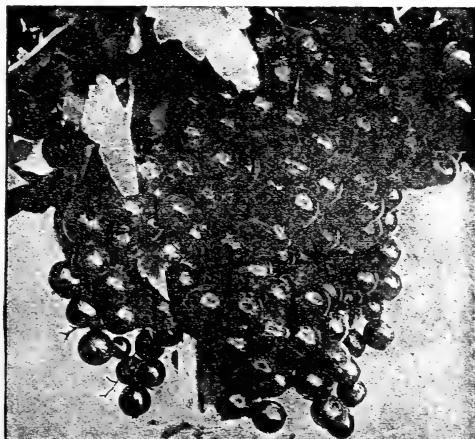

Perfection—Berry very large, larger than Fay's; bright red. Each 15c; 10 for \$1.30; 100 for \$12.00.

Red Cross—A fine red currant of large size. Each 8c; 10 for 60c; 100 for \$5.00.

Victoria—Large, bright red. Late. Each 8c; 10 for 60c; 100 for \$5.00.

White Grape—Very large, mild and excellent. The best table variety. Each 8c; 10 for 60c; 100 for \$5.00.

Wilder—Large, red, fine flavored; great yielder, very profitable for market. Each 8c; 10 for 60c; 100 for \$5.00.

Fay's Currants

Rich Land Nurseries

STRAWBERRIES

The strawberry may be successfully grown in any soil adapted to the growth of ordinary field or garden crops.

Where the winters are severe a slight covering of leaves or litter, or the branches of evergreens, will be of great service.

All varieties—10 for 35c; 100 for 60c; 1000 for \$5.00.

Brandywine—Large, fine quality. Late.

Bubach—Large, bright scarlet. Early to medium.

Corsican—A magnificent variety. Large red.

Marshall—Very large, rich crimson; very good. Medium to late. One of the very best.

Michel's Early—Valuable on account of its earliness and productiveness.

Sharpless—One of the largest and best strawberries.

If by mail add 25c per 100 plants for postage

Asparagus

Conover's Colossal. 10 for 15c; 100 for 65c; 1000 for \$4.50.

Palmetto—10 for 15c; 100 for 65c; 1000 for \$4.50.

Rhubarb

Our Customers Recommend Us

These letters are all on file in our office and were sent to us without solicitation.

Rhode Island.

We have received your first consignment and find same very satisfactory.

Very truly yours,

W. R. Davis.

New York.

I take pleasure in advising you that the Berry Bushes which you have furnished are planted and are coming up very satisfactorily. They are far superior to similar Berry Bushes bought at the same time from other firms and I assure you of my future patronage.

E. Schaaf Regelman.

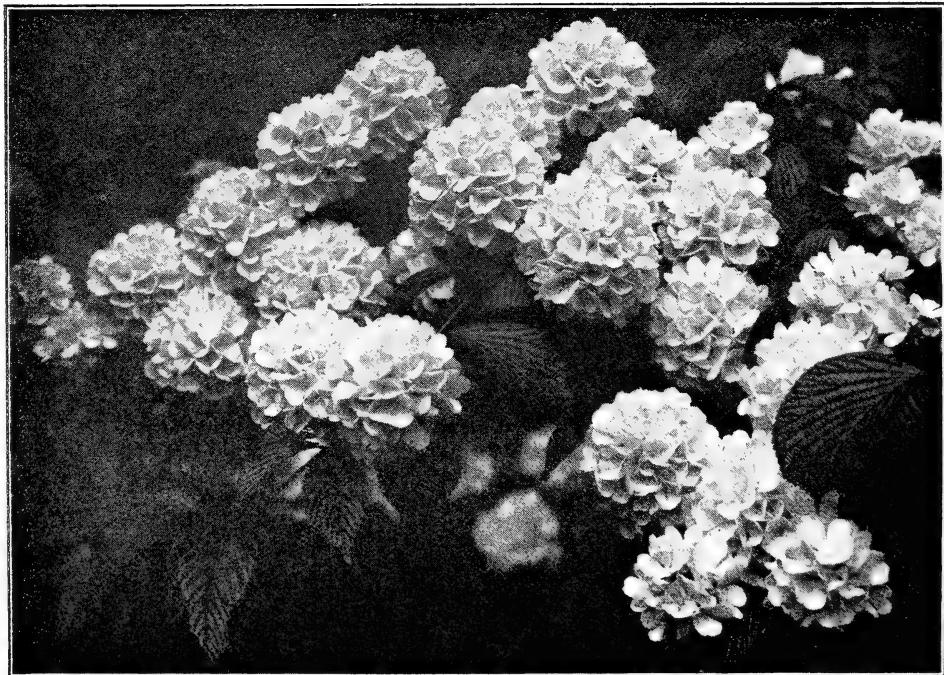

New York.

I received your box of Nursery Stock all O. K. and I am very well pleased with it.

Edw. McBride.

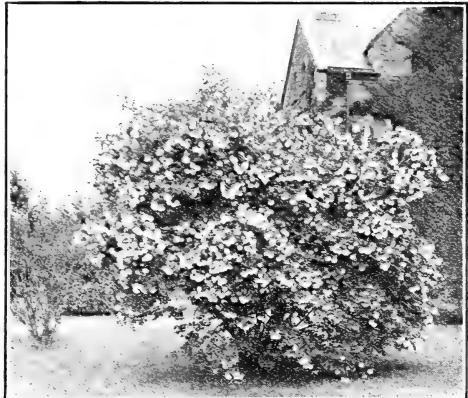

Wisconsin.

We are more than pleased with the goods.
Ward & Knezel.

DOUBLE JAPANESE SNOWBALL (*Viburnum plicatum*)

Rich Land Nurseries

OLD FASHIONED SNOWBALL

HEDGES

Hedges are very popular and are rapidly taking the place of fences. This is particularly true of California Privet which is undoubtedly the most popular and the most extensively planted for that purpose.

To make a dense hedge of California Privet the plants should be set in double rows nine inches apart alternating the plants in the rows. A good hedge can also be made by planting a single row nine inches apart, or even twelve inches. 18-24 in., 100 for \$2.50; 1000 for \$22.00. 2-3 ft., 100 for \$4.00; 1000 for \$32.00.

A hedge is one of the greatest beautifiers

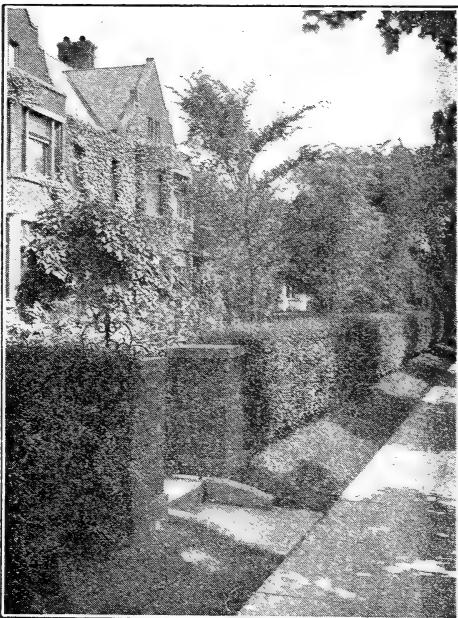

SWEET SYRINGA

The best low growing hedge is the Thunberg's Barberry which should be planted in single rows twelve inches apart. 12-18 in., 100 for \$8.00. 18-24 in., 100 for \$10.00.

Another first class hedge, and one which is valuable for defense on account of its sharp thorns, is the Japan Quince. Plant this in single rows twelve inches apart. 12-18 in., 100 for \$6.00. 18-24 in., 100 for \$8.00.

For an Evergreen Hedge the best cheap hedge is the American Arbor Vitae which should be planted in single rows twelve inches apart. 12-18 in., 100 for \$10.00. 18-24 in., 100 for \$14.00.

ROSE BUSHES

Each 25c; 10 for \$2.00.

We have selected the following from the almost endless list of varieties as likely to give the greatest satisfaction:

Red and Crimson Roses

Alfred Colomb—Superb double red.

Baron de Bonstetten—Very dark velvety crimson.

General Jacqueminot—The ever popular "Jack" Rose.

Marshall P. Wilder—Beautiful bright red—constant bloomer.

Prince Camille—The nearest approach to a Black Rose.

Ulrich Brunner—Beautiful cherry red.

Pink Roses

Anne de Diesbach—Beautiful bright pink.

Clio—Delicate flesh pink, in clusters.

Francois Levet—A beautiful very free blooming rose.

Mme. Gabriel Luizet—A beautiful shade of pink.

Mrs. John Laing—Without doubt the most satisfactory Pink Rose—blooms all summer.

Mrs. R. G. Sharman Crawford—A charming pink, deeper in color than the preceding.

Paul Neyron—Enormous flower—similar in color to American Beauty, but far superior to it for growing out of doors.

PAUL NEYRON

White Roses

Frau Karl Druschki—The finest of all hardy White Roses—perpetual bloomer.

Margaret Dickson—Beautifully shaped flower.

Moss Roses—White and pink. Each 25c; 10 for \$2.00.

Japan (Rugosa) Roses—Both red and white. Each 20c; 10 for \$1.50.

Persian Yellow Rose—The only hardy yellow rose. Each 30c; 10 for \$2.50.

NOVELTY

THE BLUE ROSE

RICH LAND NURSERIES

PHLOX

Are of vigorous habit, easy culture, and produce in great profusion during a long season, flowers of fine form and substance, and of bright and varied colors. As regards their culture, it may be briefly stated that they succeed in any good garden soil, but they are greatly improved by being liberally manured, and an occasional supply of liquid manure during the growing season will greatly increase the size of their trusses. When in flower they should be watered freely every evening. The Phlox usually flowers in July and August, and in order to render it autumnal flowering, it is necessary to pinch the shoots about the first of June and again in July. The plants will then flower in September. For early flowers some of the plants may be left unpinched. When two years old the finest trusses are produced. The third year the plants flower tolerably well; but they will not keep thrifty and healthy after that. The old plants should then be lifted in the fall, divided and transplanted. But the better plan is to keep up a succession of young plants from cuttings by securing a fresh collection every year. We annually introduce all new and desirable varieties of home and foreign production. The best time to plant them is in the autumn. Our plants are large and fine.

HARDY PHLOX

Phlox—Each 15; 10 for \$1.20. Colors—White, red, pink, purple, salmon, scarlet, etc.

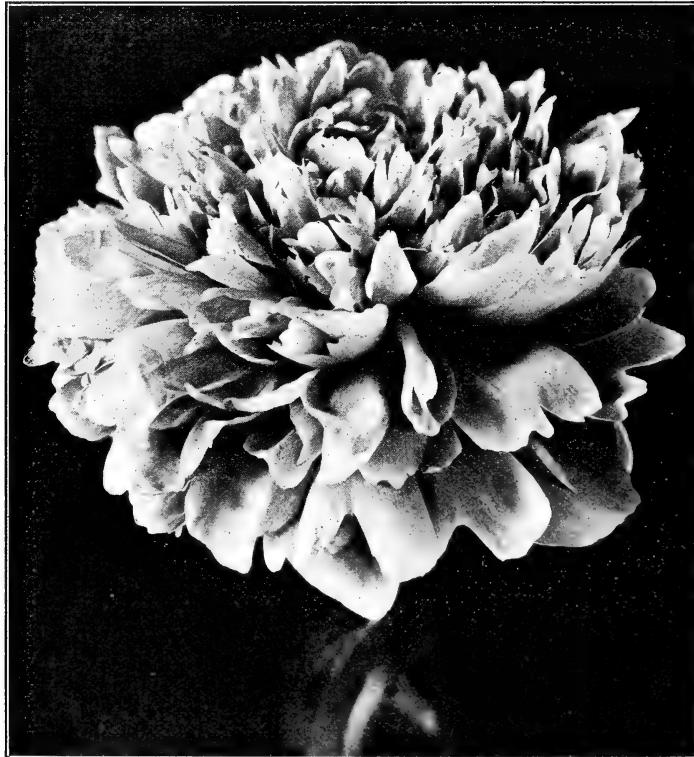

RICH LAND NURSERIES

PEONIES

Fall is the best time to plant these beautiful hardy flowers

A noble flower, almost rivaling the rose in brilliancy of color and perfection of bloom. The first point in its favor is hardiness. It may be truly said to be "hardy as an oak." In the severest climate the plants require no other protection than that which they afford themselves. Then their vigorous habit and healthy growth, freedom from all diseases and insects are important arguments in favor of their cultivation. Each succeeding year adds to their size and beauty. The foliage is rich and glossy and of a beautiful deep green color, thus rendering the plants very ornamental even when out of flower. No other flower is so well adapted for large, showy bouquets. The Peony may be planted either singly on the lawn or in borders. Where the lawn is extensive a large bed makes a good show. It is really a flower for the million. They bloom early in June.

We have them in Red, White and Pink. A bed of mixed colors produces a wonderful effect. Each, 25c; 10 for \$2.00; 100 for \$15.00.

PEONY

RICH LAND Nurseries

HARDY PLANTS

Anemone—Beautiful fall blooming plants. Each 15c; 10 for \$1.20.

Eulalia—Tall, hardy grasses, showy and beautiful. Each 15c; 10 for \$1.20.

Heavenly Blue Flower—Another very good hardy plant. Entirely distinct from the preceding. Each 15c; 10 for \$1.20.

Here are More Letters

Connecticut.

I am highly pleased with the quality of the stock, and wish I had ordered more. I am putting in several hundred other trees from three different Nurseries, and your stock is ahead of them all for general condition, especially the roots, which show evidence of the most careful digging, scarcely any of the lot of one hundred dwarf pears having any broken roots.

C. R. Duffie.

Utah.

I have spent One Hundred Dollars for flowering bushes and trees and plants this Spring but yours beats them all.

Mrs. Nellie Pelton.

Illinois.

The package came through in fine shape, and I am especially pleased with the stock which you sent. The trees and Shrubs all have an abundance of roots and were apparently taken up and packed with considerable care.

James K. Calhoun.

Louisiana.

Lot of fruit trees arrived by Southern Pacific Steamer on the 5th and they fully satisfy.

N. Watts Maddux.

New York.

The Nursery stock ordered from you recently reached here in first-class shape and looks to be good and sturdy. I am so well pleased with it that, like Oliver Twist, "I want some more."

C. H. Jackson.

All Our Customers are Pleased with the Way We Do Business

New York.

The order you filled proved very satisfactory.

Mrs. H. M. T. Beekman.

Massachusetts.

The plants arrived in excellent condition last Saturday and I wish to thank you for sending them so promptly.

Miss Grace I. Butterfield.

Rhode Island.

Received the bushes in fine condition, the best I ever had. Thank you very much for the surplus you sent. I will send another order.

Wm. P. Ball.

New Jersey.

My trees, vines and plants arrived O. K., freight prepaid. The trees are a magnificent lot and I am exceedingly well pleased with their size, character and condition. If all the stock you send out is of the same character I do not see how any one could complain. Should I ever want trees again, I shall have no hesitancy in ordering from you.

Levi Hall.

Pennsylvania.

The trees arrived in good condition, fresh and nice and I am very much pleased with everything you sent.

J. C. Green.

New York.

Received your trees in perfect condition. They are all fine.

A. M. Hurel.

Pennsylvania.

I received the Nursery Stock you sent me in first class condition. You certainly pack A-1 and your stock is the best I ever received.

Oliver J. Young.

Rhode Island.

I beg leave to thank you for the very fine shrubs you sent me and the care taken in packing. They arrived in A-1 condition and are growing finely.

Theodore B. Keith.

New Jersey.

Trees received in good shape.

Wm. C. Ludi.

BUY DIRECT FROM THE GROWER. WE HAVE NO AGENTS

In growing and furnishing all nursery stock we use the greatest care to have it true to name, and will replace any that may prove untrue. But no sale by us carries a warranty of quality, express or implied, and for any error we shall not be liable for more than the purchase price. Every purchase from us is made on these terms.

HOW TO PREPARE FRUIT TREES FOR PLANTING

Illustrations showing how they should be pruned before planting. In each case an example is given of an unpruned and pruned tree. No. 1. Standard, with stem or trunk three to four feet clear of branches. Standard Apples, Pears, Cherries and Plums have usually this form. No. 2. Peach Tree. No. 3. Dwarf Pear. The usual appearance of trees, two or three years from bud, prepared for training in pyramidal form. No. 4. Quince Tree.

A DWARF PEAR ORCHARD IN BLOOM. The Duchess and Anjou Pears grown on dwarf trees produce perfect fruit which commands the highest price.
